AIR HANDLING UNITS

KEY TO MODEL TYPES

EC = Fans with low energy motors  
AC = Fan with asynchronous motors

Side connected

Capacity 50/75/100/130/180/250

HERU®130S2 EC A

Version

Built-in electrical heater with:  
A = Total power  
B = Half power  
C = Without electrical heater

EC = Fans with low energy motors  
AC = Fan with asynchronous motors

Side connected

Capacity 400/800/1600

HERU®800S EC ET R E-230V

CX = Control system Siemens Climatix  
ET = Without control system,  
Electrical wiring to terminal block

L = Left handed application  
R = Right handed application

W = Water heater  
E = Electrical heater

400V = Three phase  
230V = Single phase

EC = Fans with low energy motors  
AC = Fan with asynchronous motors

Top connected

Capacity 62/70//100/200/250

HERU®100T EC ARC

Built-in electrical heater with:  
A = Total power  
B = Half power  
C = Without electrical heater

R = Right handed application  
L = Left handed application

C = With cooker hood connection

EC = Fans with low energy motors  
AC = Fan with asynchronous motors

Top connected

Capacity 400/800/1600

HERU®400T EC CX L W-400V

CX = Control system Siemens Climatix  
ET = Without control system,  
Electrical wiring to terminal block

L = Left handed application  
R = Right handed application

W = Water heater  
E = Electrical heater

400V = Three phase  
230V = Single phase

## **ÖSTBERG**

**FOR HEALTHY INDOOR CLIMATE  
WITH ENERGY EFFICIENT VENTILATION**

Östberg is one of the leading producers of fans in the world.

In the early 1970s the founder and owner of the company designed the first circular and rectangular in-line radial duct fan with external rotor motor and straight-through airflow (180°) in the history.

We have continued to develop new products and today we offer a wide product range of centrifugal in-line duct fans, roof fans, wall fans and energy recovery units.

Our goal is to always offer quality products at competitive prices.
