DEC INTERNATIONAL TECHNICAL SPECIFICATIONS

SONODEC® 25

ACOUSTICALLY AND THERMAL INSULATED DUCTING

The SONODEC® 25 consists of a perforated aluminum laminate inner duct thermally and acoustically insulated with glass wool and is provided with an aluminium laminated outer jacket.

An anti-migration barrier between the duct and the insulation wool adds strength and prevents the diffusion of insulation particles, as well as the following functions: improves acoustical performance, avoids cold bridges, leakage, pressure loss, protecting the Rvalue to be effected by humidity influences and avoid grow of fungus in the insulation wool.

APPLICATION

- Air-conditioning systems
- Air supply systems
- Preventing condensation in air ventilation systems

(ASTM C177-76)

Decreasing of machine noises

SPECIFICATIONS

Article code: DS{Ø}

Temperature range: -30 °C to 140 °C up to +2500 Pa Operating pressure: Operating air velocity: max. 30 m/s Min. bending radius: $0.54 \times Ø + 25mm$ Standard diameter range: 82 - 508 mm

Standard length: 10 mtr

CONSTRUCTION

alu/poly laminate Inner duct: Barrier closed film Glass wool blanket: 25mm, 16kg/m³ Outer jacket: alu/poly laminate R-value glass wool: 0.65 m² K/W

Appearance: aluminium

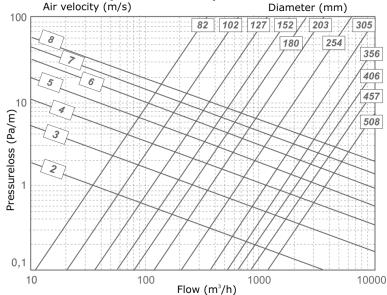

CLASSIFICATIONS

EU (EN13501-1): B-s1,d0 UK (BS476): Part 6, 7 and 20

PRESSURE LOSS (STRAIGHT DUCT)

Regulation or protocol French VOC Regulation

Conclusion

Version of regulation or protocol Regulation of March and May 2011 (DEVL1101903D and DEVL1104875A)

The SONODEC® 25 fulfills all the requirements and are classified as specified within EN 13180: Ventilation for buildings - Ductwork - Dimensions and mechanical requirements for flexible ducts.

The SONODEC® 25 is also available, on request, as SONODEC® 50 with a 50 mm glass wool layer, the article number is: DS50{Ø} R-value glass wool: 1.3 (50 mm) m^2 K/W (ASTM C177-76). Min. bending radius: $0.54 \times Ø + 50$ mm

In order to avoid misunderstandings, any interested party is advised to contact DEC INTERNATIONAL® checking for any changes in materials and/or information after this brochure was published.

PLEASE NOTICE:

The consultant is responsible for the actual installation and Ine consultant is responsible for the actual installation and mounting of the product. The mentioned values with respect to temperatures are not appropriate to be used to determine the physical properties. These properties are also dependent on humidity and the temperature of the air inside and outside of the H.V.A.C. system.

TRADEMARKS:

SONODEC®, the DEC logo and DEC International are trademarks, or registered trademarks of Dutch Environment Corporation BV in the Netherlands and/or other

RESTRICTIONS:

The SONODEC® ducts are not suitable INE SONODICE ducts are not suitable for discharging combustion products from open fireplaces and oil-fired boilers. Neither are the SONODICE ducts suitable for transporting air with a high concentration of acid and base.
